Substituting into an expression

1. Substitute these values into each expression; $a = 5, b = 2$
 - a + b
 - a - b
 - $2a + 3b$
 - $5a - b$
2. Substitute these values into each expression; $x = 4, y = 7, z = 2$
 - $x + y + z$
 - $2x - y + 3z$
 - $4y + 2z - x$
 - $x^2 + 7y + 5x$
3. Substitute these values into each expression; $m = -2, n = 4, p = 3, q = -8$
 - $m + n$
 - $p + q - 2n$
 - $2q - p$
 - $3m - 2q$
 - $m^2 + 4p + q$
4. Find the value of each expression using the values given.

| | |
|-----------------------|--------------------------|
| a. $\frac{x}{z} + 4y$ | $x = 10, y = 2$ |
| b. $3(p + 2q)$ | $p = 8, q = 3$ |
| c. $m + n(q + 3)$ | $m = 4.5, n = 6, q = -1$ |
| d. $(u + v)^x$ | $u = 7, v = -4, x = 4$ |

Fractions to Percentages
Small Fractions
Math Worksheet 4

Name: Answer Key

Convert the fraction to a percentage:

$$\frac{2}{8} = \frac{2}{8} \rightarrow 2 \div 8 \rightarrow 25\%$$

$$\frac{1}{8} = \frac{1}{8} \rightarrow 1 \div 8 \rightarrow 12.5\%$$

$$\frac{3}{8} = \frac{3}{8} \rightarrow 3 \div 8 \rightarrow 37.5\%$$

$$\frac{6}{8} = \frac{6}{8} \rightarrow 6 \div 8 \rightarrow 75\%$$

$$\frac{5}{8} = \frac{5}{8} \rightarrow 5 \div 8 \rightarrow 62.5\%$$

$$\frac{3}{4} = \frac{3}{4} \rightarrow 3 \div 4 \rightarrow 75\%$$

$$\frac{3}{5} = \frac{3}{5} \rightarrow 3 \div 5 \rightarrow 60\%$$

$$\frac{7}{8} = \frac{7}{8} \rightarrow 7 \div 8 \rightarrow 87.5\%$$

$$\frac{1}{4} = \frac{1}{4} \rightarrow 1 \div 4 \rightarrow 25\%$$

$$\frac{1}{2} = \frac{1}{2} \rightarrow 1 \div 2 \rightarrow 50\%$$

Changing percentages into fractions and decimals worksheets. How to do fractions and percentages. Changing fractions into percentages worksheets. Converting fractions into percentages worksheet. Fractions into percentages worksheet pdf. Turning fractions into percentages worksheet. How to make fractions into percentages. Converting fractions into decimals and percentages worksheets.

Fractions are also useful when counting money, weighing ingredients and telling the time. Practising fractions with different shapes helps children grasp the concept of a fraction and better understand how to apply it to different scenarios. Year 2 Fractions Read and Colour Worksheet; PlanIt Maths Y2 Fractions: Find the Fraction - Home Learning ... Welcome to our Convert Fractions to Decimal support page. Here you will find information and support about how to convert a fraction into a decimal. We have several worked examples as well as a link to our fraction to decimal calculator and a practice sheet. Converting Percentages to Fractions Here you will find some simple information and advice about how to convert a percentage to a fraction. You will also find a printable resource sheet and some practice sheets which will help you understand and practice this math skill. Using this Mixed Numbers Worksheet, your students will learn how to recognise mixed numbers and be able to practice adding mixed number fractions too. Why not use this PowerPoint alongside it to introduce the topic? There are two sheets of 36 different problems for them to solve, so there is plenty of room for practising to make sure they have a solid understanding of ... Improper fractions to mixed numbers, step by step, example. For all free math videos visit . Proper fractions (less than 1) Allow improper fractions Use mixed numbers Allow negative fractions & decimals: For decimals to fractions only: Maximum of decimal digits. Do not simplify the answers. For fractions to decimals only: The distribution of ... Ordering Fractions KS2 Differentiated Worksheet - Another great set of mixed ability fractions worksheets. Great practice for Year 6 pupils. Fraction Wall - KS2 - This colourful wall chart, which shows the relationship between whole numbers and fractions, is a great visual cue for pupils. A top tip for ordering fractions: $10/11/2020 \cdot (d) 1.6. 20$. The value of $7.75 \div 0.25$ is: (a) 31 (b) 0.0031 (c) 0.31 (d) 3.1. Grade 7 Maths Fractions and Decimals Fill In The Blanks. 1. Welcome to our Convert Fractions to Decimal support page. Here you will find information and support about how to convert a fraction into a decimal. We have several worked examples as well as a link to our fraction to decimal calculator and a practice sheet. Here are our worksheets to help you practice converting decimals to fractions. The sheets within each section are graded with the easiest ones first. The harder sheets involve both converting the decimals and then simplifying the fractions. We also have separate sheets involving converting mixed decimals (with a value greater than 1) into ... A great way to get Year 5 students practising their mixed to improper fractions conversions, this brightly coloured worksheet asks students to convert between improper fractions, visual pie graphs and mixed fractions - and it comes with an answer sheet for self-assessment if required. The questions in this improper fractions worksheet are also comprehensive ... The student sees the fractions as two unrelated whole numbers separated by a line. Students don't realize that the intervals must always be equal when partitioning a whole or a fraction into unit fractions. The student does not understand the importance of identifying the whole of a ... Percentages are another area that children can find quite difficult. There are several key areas within percentages which need to be mastered in order. Our selection of percentage worksheets will help you to find percentages of numbers and amounts, as well as working out percentage increases and decreases and converting percentages to fractions or decimals. $22/06/2014 \cdot$ Converting fractions into percentages. Subject: Mathematics. Age range: 7-11. Resource type: Worksheet/Activity. 4.6 38 reviews. Miss H's shop. 4.5111111111112 98 reviews. I'm a primary school teacher with several years experience in lower and upper KS2. Last updated. 22 June 2014. Share this. Practice writing fractions as percents. For example, convert $2/5$ to a percent. Practice writing fractions as percents. For example, convert $2/5$ to a percent. If you're seeing this message, it means we're having trouble loading external resources on our website. ... Math · 6th grade · Ratios, rates, & percentages ... Repeated Percentage Change With Multipliers - Ashton Coward; Scaffolded compound interest sheet - by ... Converting Recurring Decimals into Fractions (GCSE Revision) - Maths4Everyone on TES; Recurring Decimals GCSE ... Mixed percentages worksheet - by me! ... [back to top] Fractions to percentages by Don Steward: Growth and Decay and Interest . Repeated Percentage Change With Multipliers - Ashton Coward; Scaffolded compound interest sheet - by ... Converting Recurring Decimals into Fractions (GCSE Revision) - Maths4Everyone on TES; Recurring Decimals GCSE ... Learn the basics of the concept of percent in this easy lesson! Percent (or per cent) means one hundredth. Therefore, 1% means $1/100$ or one hundredth, and 7% means $7/100$ or seven hundredths. Since percentages are just hundredth parts (which means they are FRACTIONS), we can very easily write them as fractions and as decimals.
